Warehouse, Wijaya Kusuma | March 2020-2022

- Lifting and Moving Goods: Assisted in lifting, moving, and organizing goods in the warehouse or loading them into delivery vehicles, such as trucks or containers.
- Goods Inspection: Checked the condition of goods before loading to ensure they were in good condition and undamaged.
- Safe Goods Arrangement: Arranged goods securely in the delivery vehicle to prevent damage during transit.
- Ensuring Proper Inventory: Assisted in matching the quantity and type of goods loaded with the shipping list (packing list) or invoice.
- Work Area Cleanliness: Maintained cleanliness and orderliness in the warehouse during the loading process.
- Driver Coordination: Collaborated with drivers or the delivery team to ensure that the goods were properly arranged and ready for transport.

ORGANIZATION EXPERIENCE

Head of the Futsal Student Activity Unit (UKM) at Universitas Dinamika

- Leading the Team and Developing Strategies: Developing and implementing strategic plans to advance the university's futsal team to higher competitions, such as Pomprov and Liga Mahasiswa.
- Player Recruitment: Identifying and recruiting talented futsal players with experience in the PON event from regions such as Tuban, Surabaya, and Lamongan.
- Scholarship Provision: Designing and offering scholarship programs to the recruited players to support them academically and financially, encouraging them to join Universitas Dinamika.
- Coordination with University Officials: Communicating and coordinating with university authorities to gain support for team development and scholarship programs.
- Team Promotion and Branding: Developing promotional strategies to enhance the visibility and reputation of the futsal team at the university and national levels.
- Training and Player Development: Organizing training and development programs to improve the skills and performance of futsal players.
- Team Activity Management: Managing team activities, including training schedules, matches, and competitions, to ensure everything runs smoothly.
- Building Team Collaboration: Encouraging collaboration and team spirit among players to create a positive and productive atmosphere.

EDUCATION
Bachelorof Public Relations -

Community Service Project at SDN 1 Ngagel Surabaya in the Field of Computer Science | October 2023 – November 2023

1. Development of Learning Modules: Designing and developing a learning module on the use of Canva for elementary school students, based on computer engineering techniques.
2. Implementation of Teaching Activities: Conducting teaching activities at SDN 1 Ngagel Surabaya, teaching basic computer concepts and skills in using Canva to students.
3. Student Training: Providing hands-on training to students in using Canva to support their learning and enhance their creativity in creating visual materials.
4. Preparation of Journal Reports: Compiling reports in the form of a journal that includes activities, teaching methods, and outcomes achieved during the community service process.
5. Coordination with Supervising Lecturer: Collaborating with the supervising lecturer, Tutut Wurijanto, M.Kom, to receive guidance and feedback on the service process and the developed module.
6. Evaluation of Activities: Conducting evaluations of the teaching and training activities that have been carried out to identify successes and areas that need improvement.
7. Providing Feedback to Students: Offering feedback to students on their work using Canva, as well as suggestions on how to further improve their skills.
8. Building Relationships with the Community: Establishing positive relationships with the school and community to support the sustainability of community service programs in the future.
